

Esslinger Weinerlebnisweg

Station 25b

The Refurbishment of the winepress

You go backwards if you do not go forwards. That's why the Esslingen winegrowers already in 2013 thought about remodelling of their winepress. In June 2019 the new building could be opened.

To modernize the existing winepress was an enormous demand in time and effort for the architecture firm GAYSERT from Esslingen. An extraordinary challenge were the statics, because the building has been increased by one floor without changing the existing foundation. It was worthwhile.

Please enter !

The Esslingen vineyards are present in the modern ambience of the newly created rooms. Here you may experience excellent wines from a new perspective and enjoy them with panorama views at the surrounding vineyards.

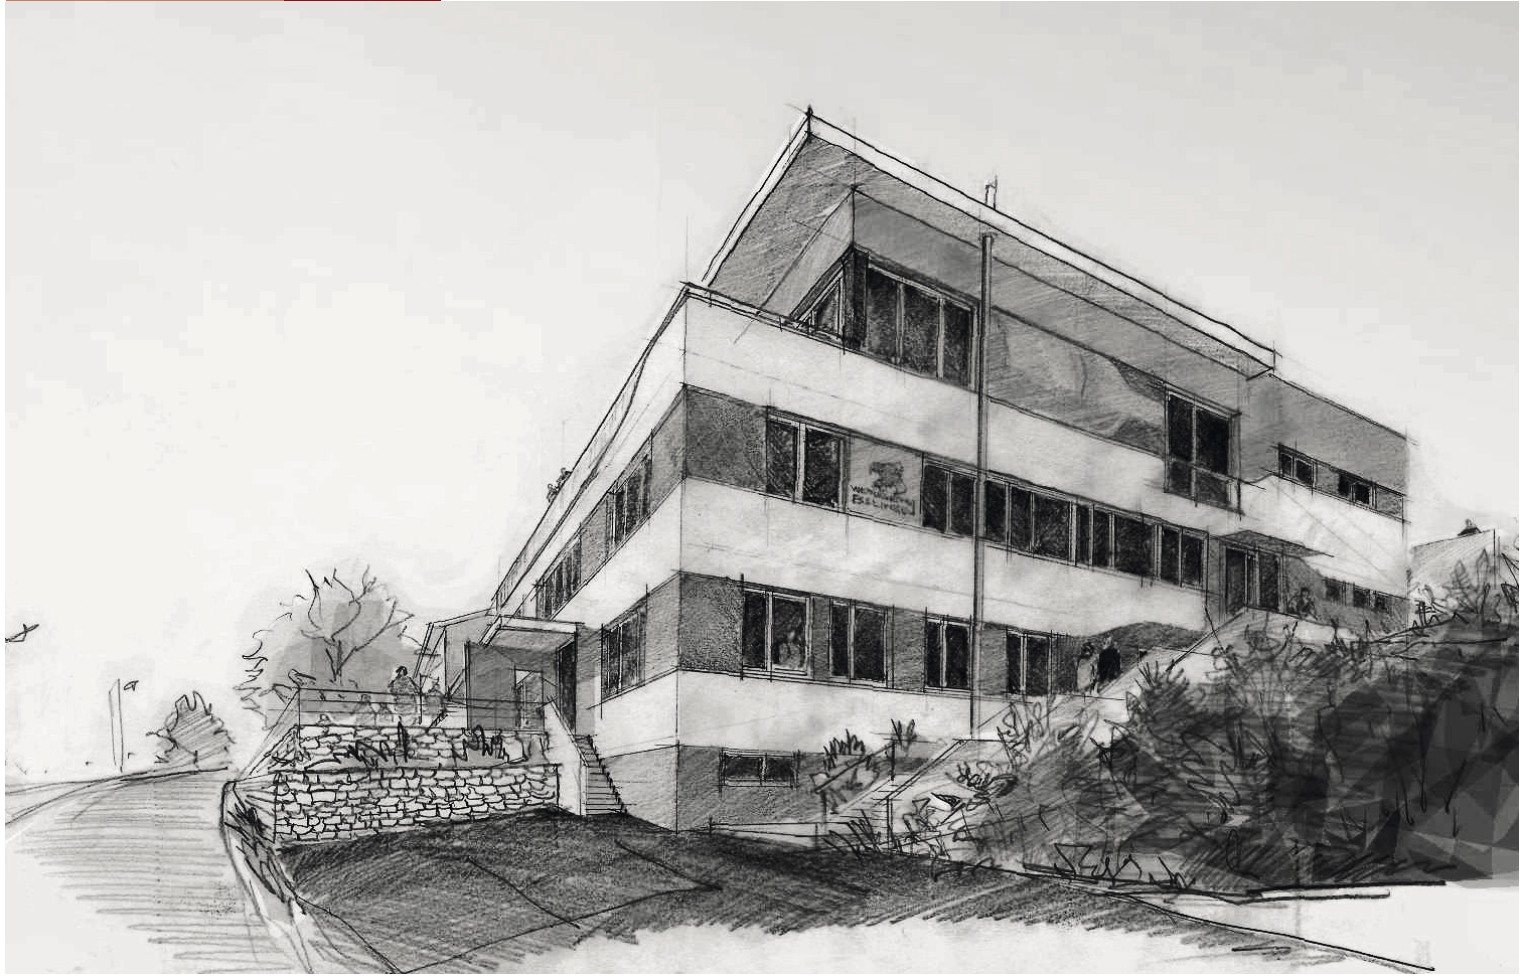

The generous tasting counter will be a popular meeting place. Here you will have the chance to talk to the winegrowers during your tasting.

High quality vinophil and culinary events will be offered in the new tasting rooms as well as the affiliated outside section.

The roof terrace offers a wonderful view at the Neckar valley. From here you can reach the courtyard at the food of the vineyards, where you can enjoy a good wine or you can let the day end after an eventful hiking tour through the vineyards.

Please enter – the winegrowers Esslingen are looking forward to your visit!
